SUMMARY

Informatics Engineering graduate (GPA: 3.63/4.00) from Universitas Gunadarma with hands-on experience delivering two deployed freelance client applications, including a property platform actively used by the client. Skilled in building RESTful APIs, authentication and RBAC systems, relational database schemas, and business-management workflows using Next.js, TypeScript, Laravel, and PostgreSQL. Seeking a Junior Full-Stack or Backend Developer role focused on scalable and maintainable web applications.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, Java, SQL, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS, Bootstrap 5, Responsive Web Design

Backend: Laravel, Node.js, RESTful APIs, MVC Architecture

Databases & ORM: PostgreSQL, MySQL, Supabase, Prisma ORM

Authentication & Security: JWT, RBAC, bcrypt, Session Management, NextAuth (Auth.js), Soft Delete, PDO Prepared Statements

Dev & Deployment: Git, GitHub, Postman, Composer, Vercel, Railway, Linux (Ubuntu)

Academic / Familiar: Spring Boot, Hibernate/JPA, Oracle Database, Maven

Currently Learning: Docker, Redis, CI/CD Pipelines, MongoDB

EXPERIENCE (FREELANCE CLIENT PROJECTS)

Freelance Full-Stack Developer — HL Finance Management

Jul 2026 – Present

Remote, Solo Developer | Live Demo: [hl-finance-app-six.vercel.app](#) | GitHub: [B3rlinSugi/hl-finance-app](#)

- Built and delivered a sales and receivables management platform end-to-end as the sole developer using Next.js, TypeScript, and Supabase (PostgreSQL).
- Designed an automated Gold/Silver/Bronze customer tier system that assigns discount levels based on configurable purchase thresholds.
- Implemented an interactive financial dashboard covering revenue, receivables, and profit analytics, with server-side pagination to retrieve transaction records in configurable page sizes.

Freelance Full-Stack Developer — Prime Property

Jun 2026 – Jul 2026

Remote, Solo Developer | Live Demo: [prime-property-sigma.vercel.app](#) | GitHub: [B3rlinSugi/prime-property](#)

- Delivered and deployed a full-stack property listing platform currently used by the client to manage property listings, customer-facing search, and brochure-generation workflows.
- Implemented multi-criteria property search and filtering by location, price, and property type.
- Built authentication and RBAC, audit logging for critical CRUD operations, and soft-delete recovery for reliable data management.
- Developed a mortgage (KPR) payment calculator and automated PDF brochure generation from property data.

PROJECTS (PERSONAL)

Student Management API — Backend Developer, Personal Project

2024

GitHub: [B3rlinSugi/student-management-api](#)

- Developed 18 RESTful endpoints using Laravel with JWT authentication and RBAC for Admin and Student roles, covering auth, major management, and student data operations.
- Implemented request validation, pagination, soft deletion with restore functionality, and documented all endpoints with request and response examples in a Postman collection following REST API best practices.

TokoKu — Full-Stack E-Commerce Platform, Personal Project

2024 – 2025

GitHub: [B3rlinSugi/tokoku-ecommerce](#)

- Designed a 10-table relational database schema in MySQL covering products, cart, checkout, inventory, and orders using native PHP 8 (MVC).
- Implemented RBAC authentication with bcrypt hashing and PDO prepared statements to prevent SQL injection.
- Built a rule-based voucher discount engine supporting percentage and fixed-value discounts, plus an admin dashboard with Chart.js sales analytics.

EDUCATION

Universitas Gunadarma — Depok, West Java, Indonesia

Graduated: May 2026

Bachelor of Informatics Engineering (S1 Teknik Informatika) | GPA: 3.63 / 4.00

LEADERSHIP & ORGANIZATIONS

Head of Social & Political Affairs — BEM FTI, Universitas Gunadarma

Jul 2024 – Aug 2025

- Led two departments comprising 15+ members, completing 10+ planned programs (100% completion rate) and coordinating faculty-level social programs and external institutional events.

CERTIFICATIONS

- BNSP Junior Web Programmer — Badan Nasional Sertifikasi Profesi (SKKNI), 2025
- Basic Web Application Development — Universitas Gunadarma (PHP, Database, SDLC), 2023
